ABOUT ME

Skilled Software Developer having practical experience in full-stack web and cross-platform mobile application development. Well-versed in MERN Stack, JavaScript, React.js, Node.js, Express.js, MongoDB, Flutter, Dart, RESTful API, JWT Authentication, and LLM API Integration. Self-developed and launched the Careerly app, which is an AI-based mobile application.

EDUCATION

JSPM University Pune | 2023-2026

BTech in Computer Science and Engineering

Sahyadri Polytechnic Sawarde | 2020-2023

Diploma in Computer Engineering

WORK EXPERIENCE

CodSoft | Jan2024 - mar 2024

Software Developer Intern

- Designed and created independently 3+ responsive web applications using HTML, CSS, JavaScript, and Bootstrap, with mobile first design and cross-browser support.
 - Created interactive UI components and functionality independently through rapid prototyping.
 - Independently demonstrated projects to program coordinators, received feedback, and made enhancements based on requirements.
-

SKILLS

Languages: JavaScript, TypeScript, Python, Dart, Java, HTML, CSS

Frontend: React.js, Next.js, Flutter, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, NestJS, FastAPI, Django, REST API, WebSockets

Databases: MongoDB, PostgreSQL, MySQL, Mongoose

Tools: Git, GitHub, Docker, Vercel, Netlify, Render, Postman

PUBLICATION

Careerly AI Career Roadmap Builder

RJMETS · Vol. 08, Issue 03 · March 2026 · Impact Factor: 8.187

Developed and launched AI-enabled career roadmap creation platform leveraging multi-model LLM consolidation, scheduling, and personalized learning paths.

PROJECTS

Careerly - AI Career Roadmap Platform

Flutter · Node.js · Express.js · MongoDB · JWT · OpenRouter API · YouTube Data API
Nov 2025 – Mar 2026

- Developer of an AI-based mobile app that creates personalized career roadmaps by leveraging multiple LLMs through OpenRouter API.
- Created Node.js/Express REST APIs with JWT authentication and MongoDB to handle users, roadmaps, resumes, and progress.
- Designed Flutter frontend to render roadmaps, PDF export/import of resumes, and YouTube learning suggestions.
- Authored papers on system design and AI aggregation, published in IRJMETS (March 2026).

Sign Language Recognition App

Python · TensorFlow/Keras · OpenCV · React 2024

- Implemented real-time recognition of sign language using a CNN model, trained on data from gesture images, to obtain reliable results using a webcam.
 - Combined the trained model with a web application created using React, connected via Flask API.
-

CERTIFICATION

- Software Engineering Job Simulation – J.P. Morgan (January 2024)
- Introduction to Flutter – DataFlair (July 2024)
- IRJMETS Publication Certificate – Impact Factor 8.187 (March 2026)
