

SOHAM BAMANE

Full-Stack Developer | MERN · Flutter · Node.js

+918552983941 | soham.bamane.1129@gmail.com | Pune, Maharashtra | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full-Stack Developer with hands-on experience building production-grade web and mobile applications using the MERN stack, Flutter, and Node.js. Shipped Careerly, an AI-powered career roadmap app with published research (IRJMETs, March 2026), integrating multi-model LLM APIs, JWT authentication, and personalized learning recommendations. Experienced in REST API design, cross-platform mobile development, and scalable backend architecture. Looking to contribute to an engineering team where I can build impactful products from day one.

EXPERIENCE

Web Development Intern — CodSoft

January 2024 – February 2024 · Pune

- Developed 3+ responsive web applications using HTML, CSS, JavaScript, and Bootstrap with cross-browser compatibility and mobile-first design
 - Built UI components and interactive features from scratch, practicing rapid prototyping under real project constraints
 - Met weekly deliverable deadlines and presented project demos to program leads in a structured internship environment
-

PROJECTS

Careerly — AI Career Roadmap App · [GitHub](#) (Nov 2025 – Mar 2026)

Flutter · Dart · Node.js · Express.js · MongoDB · JWT · OpenRouter API · YouTube Data API.

- Sole developer of a production-grade AI mobile app that generates personalized, stage-wise career roadmaps using multi-model LLM aggregation via OpenRouter API
- Architected and deployed a Node.js/Express.js REST backend with JWT authentication, roadmap generation endpoints, and resume management workflows from scratch
- Designed MongoDB schemas for users, roadmaps, and resumes supporting progress tracking and scalable read/write operations
- Shipped a Flutter mobile UI with interactive roadmap visualization, PDF resume import/export, and curated YouTube recommendations — distributed via downloadable APK
- Research published in IRJMETs (Vol. 08, Issue 03, March 2026) — move this line to Publications section.

Library Management System

(Aug 2022 – May 2023)

PHP · MySQL · JavaScript · HTML · CSS

- Built a web-based library system with book borrowing/returns, user authentication, fine calculation, and real-time search for 2 user roles (librarian and student)
-

PUBLICATIONS

Careerly: AI Career Roadmap Builder

IRJMETs · Volume 08, Issue 03 · March 2026 · Impact Factor: 8.187

Proposed and implemented an AI-powered career roadmap generation system using multi-model LLM aggregation, scheduling algorithms, and personalized learning recommendations.

EDUCATION

Bachelor of Technology in Computer Science and Engineering JSPM University Pune	(2023–2026)
Diploma in Computer Engineering Sahyadri Polytechnic Sawarde	(2020–2023)

SKILLS

- **Languages:** JavaScript, TypeScript, Java, Python, Dart, HTML, CSS
 - **Frontend:** React.js, Next.js, Flutter, Bootstrap
 - **Backend:** Node.js, Express.js, FastAPI, Django
 - **Databases:** MongoDB, MySQL, PostgreSQL
 - **Tools & Platforms:** Git, GitHub, Vercel, Netlify
 - **Security:** OWASP Top 10, JWT Authentication
 - **Other:** REST APIs, WebSockets
-
